Important Questions	Answers	Why This Matters:
What is the overall deductible ?	\$0 individual / \$0 family	See the Common Medical Events chart below for your costs for services this plan covers.
Are there services covered before you meet your deductible ?	Yes. In network Preventive care is covered before you meet your deductible	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible . See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	No	You don't have to meet deductibles for specific services.
What is the out-of-pocket limit for this plan ?	\$3,000 individual / \$6,000 family	If you have other family members in this plan , they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit ?	Premiums, out-of-network provider charges, balance-billing charges, healthcare this plan doesn't cover, and penalties for failure to obtain prior authorization for services or the difference in cost when a brand name drug is dispensed instead of its generic equivalent.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .

You will pay less if you use a provider in the plan's network . You will pay the most if you use an out-of-network provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
